

RubberSource specializes in the design and manufacture of Protective Rubber Linings for chemical and abrasion resistant applications. With proprietary Permabond® catalog (formerly Uniroyal Permabond®) of proven uncured rubber compounds, Rubber Technologists, Chemists, state of the art laboratory, in house mixing & calendaring, we are equipped to handle any requirement.

RubberSource has set a new standard of service by partnering with Rubber Applicators, Engineering Firms and End Users providing project advice with technical experience, and expertise in the form of material recommendations, Specification and project scope writing, global applicator referral and training. RubberSource recognizes the true value add is not just having a quality product and service but being involved in the inception and early stages of projects by leading and exceeding expectations.

By using RubberSource's Protective Rubber Linings at the initial stage of projects we can offer the following services at no charge:

#### **Services**

- Material Selection
- Design Assistance
- Specification Writing
- Proposal Reviews
- Qualify Rubber Applicators - Oversee Lining Installations - Problem Solving
- Failure Analysis

RubberSource's new standard of service has established the company as the Protective Lining Manufacturer of Choice throughout the World. RubberSource will continue to lead the industry in product innovation and technical development, while remaining the benchmark for product quality, and customer service, during and after project completions.

**Engineered to Exceed Expectations**
